

RF Solution offer a wide selection of Flanged Resistor for global customers. RFTXX-60RM2006 is a Flanged Resistor in Capacitance of 2.6 PF@100 $\Omega$ . It is made of high quality materials under a high standard, the Resistance of this product is XX  $\Omega$  (10~2000 $\Omega$ Customizable), Resistance Tolerance is ±5% and Temperature Coefficient Max is 150 ppm/°C. The component has a good working performance and stability, it is ideal for handling a Power of 60 W.

## **Product Details**

| Part Number | RFTXX-60RM2006                                   |
|-------------|--|
| Description | Capacitance 2.6 PF@100 $\Omega$ Flanged Resistor |

## **General Parameters**

| Capacitance                 | 2.6 PF@100Ω                  |
|-----------------------------|------------------------------|
| Resistance                  | XX Ω (10~2000Ω Customizable) |
| Resistance Tolerance        | ±5%                          |
| Temperature Coefficient Max | 150 ppm/°C                   |
| Power                       | 60 W                         |
| Size                        | Refer to the design drawing  |
| Weight                      | 1                            |
| Substrate Material          | BeO                          |
| Cover                       | AL2O3                        |
| Mounting Flange             | Brass                        |
| Lead                        | 99.99% pure silver           |
| Resistive Element           | Thick Film                   |
| Operating Temperature       | -55~+150 °C                  |
| ROHS Compliant              | Yes                          |
|                             |                              |
